Ulyana Sichkar

Frontend Developer (React)

✉ uvrubel@gmail.com   📞 +7(964)725-91-92   🏠 ulya.dev   github.com/ulyavrubel

Skills and Accomplishments

Frontend

All projects listed below were developed by me from initial concept, design to technical implementation

- Built personal portfolio website using plain HTML, Sass, JavaScript
- Created music database with React (hooks) and Firebase
- Built recipe generator with React, third-party API, and Bootstrap

Backend

- Built Rest API with Node.js, Express and MongoDB showing freeCodeCamp APIs and Microservices projects incl. URL shortener and Exercise tracker

Visual Design

- Developed design prototypes in Figma for personal projects
- Create fully responsive web applications with mobile-first concept in mind

Experience

November 2018 –June 2020

In 2018 I moved to China because of my husband's work. I had to quit my job as a real estate analyst in Moscow and became a housewife in Shenzhen.

Suddenly, given tons of free time, I finally had an opportunity to rethink my career path. I've chosen frontend development under several reasons:
- Technologies are changing the world and I want to be a part od this process
- I like to quickly see the result of my work and actively influence it.
- Frontend allows to apply technical skills and stay creative at the same time.

From May 2019 I started learning HTML, CSS и JavaScript, by the end of 2019 after getting familiar with basic JS concepts started learning React. I am now returning back to Moscow and looking a frontend developer position.

Senior Project Manager

PIK Group, August 2016 – October 2018

- Coordinated the team of 5 people managing sales strategy and pricing policy for 40 residential complexes
- Participated in Business Intelligence system development (technical task, testing)

Technical Skills

Programming Languages
JavaScript (ES6+), HTML, CSS/Sass

Libraries and Frameworks
React, Node.js, Express, Bootstrap, Tailwind CSS

Tools and Platforms
Git, Heroku, Firebase

Design
Figma

Further Education

HarvardX 2019
- CS50's Introduction to Computer Science (lectures)

freeCodeCamp 2019-2020
- Responsive Web Design
- JavaScript Algorithms and Data Structures
- Frontend Libraries
- APIs and Microservices

Scrimba 2019
- Learn React

FrontendMasters 2020
- Complete Intro to React

Udemy 2020
- JavaScript: The Advanced Concepts
- Advanced CSS and Sass

Formal Education

State University of Management
2005 – 2010, Moscow
Property management
Diploma with honors

Interests

Electronic music, hiking, creative coding
